AMERICAN NUMISMATIC ASSOCIATION

The American Numismatic Association is the largest and most active numismatic body in the world. It invites and welcomes to membership all worthy persons seventeen years of age or over, who have a sincere interest in numismatics, whether they collect coins, paper money, or medals, whether advanced collectors or only those generally interested in the subject without being collectors. The Association was founded in 1891, and has over 20,000 members from every state in the Union and many foreign countries. It is federally incorporated by an Act of Congress in 1912 and is a mutual organization for the benefit of its members.

All Association members, except Associate, receive the official publication, *The Numismatist*, without cost other than their annual dues. Membership applications should be accompanied by \$5.00 for the first year's dues and \$2.00 admittance fee. Annual dues are \$5.00. Nonmember subscription, \$6.00. Single copy, fifty cents. For application blanks, subscriptions or general information, write to the General Secretary.

The Numismatist is an illustrated monthly which has been issued continuously since its founding in 1888, consists of 128 pages or more in each number and has subscribers in about sixty countries. Advertising inquiries should be sent to the Advertising Manager. All other matters for possible publication in or concerning *The Numismatist* are to be forwarded to the Editor. Unsolicited manuscripts, which are sent at the owner's risk, and other correspondence calling for a reply must be accompanied by stamped, self-addressed envelopes. MONEY OF HAWAII

By

A. KOSOFF, LM 81

Preface

Natives of our fiftieth state, with few exceptions, know only the money of the United States as the currency of Hawaii. Some collectors are familiar with the Kalakaua coinage of 1883 and occasionally with the copper cent of Kamehameha issued in 1847.

These issues represent the collector items most frequently seen today, although natives of Hawaii are usually unaware that such coins exist. However, there were others and since the admission of Hawaii into the Union as a state, interest in the coinage and currency of Hawaii has become keen enough to warrant a study.

Several years ago, I had the good fortune to meet Dr. Jacob Adler at a special meeting of the Honolulu Coin Club. Dr. Adler told me about a book he was writing, saying that one of the chapters concerned itself with the Kalakaua coinage of 1883. One thing led to another and I assured him that the Editor of the *Numismatist* would undoubtedly be happy to publish the story after the doctor had completed his work. That story has been published. Now it seems proper to fill in some details of the earlier monies of the patterns of the Kalakaua coinage, and of subsequent media of exchange. With this thought in mind I started to gather information from various sources. Many came forward with pertinent data. I am indebted to Dr. Jacob Adler, the American Numismatic Society, Elston G. Bradfield, Kenneth Bressett, Vernon Brown, The Chase Manhattan Bank Museum of Moneys of the World, John J. Gabarron, Howard D. Gibbs, Nate Gold, Maurice M. Gould, Henry Grunthal, Virgil L. King, Dr. Walter M. Loeb, David J. McClymont, Gordon Medcalf, C. A. Prepst, Harvey Stack, Dwight L. Musser, and Richard S. Yeoman. My special thanks to Steve Kosoff for his assistance in research.

Hawaiian Money

WHEN Captain Cook discovered the Hawaiian (or Sandwich) Islands in 1778, barter was the method of trading. Beads, nails, bits of iron, sandalwood—these were the common media of exchange. There are some claims that certain feathers and shells were also used but no concrete evidence has been uncovered that would give credence to these claims.

Foreign ships arriving in the Islands brought with them gold and silver coins originating in Europe and South America and King Kamehameha I accepted such coins. The scarcity of such metal, however, made trading difficult and several firms were given permission to make their own scrip for trading purposes.

We shall soon note the use of certain tokens as money but it is important to remember that until 1847 there was no national coinage in Hawaii. In 1847, King Kamehameha III issued a copper cent. It was not until 1883, when Kalakaua issued the series of silver coins, that Hawaii had a real national coinage system. We will follow a chronological sequence and list the then current "money" in its proper place.

Unfortunately, not all of the items could be illustrated because we could not locate specimens. No doubt, some of our readers could make

specimens available for that purpose and we respectfully solicit assistance in that regard.

1835. The earliest Hawaiian money was used in Kauai when William Hooper, Manager of the Koloa Plantation, made cardboard scrip in 50¢, 25¢, and 12½¢ denominations. These were redeemable at the plantation store for merchandise.

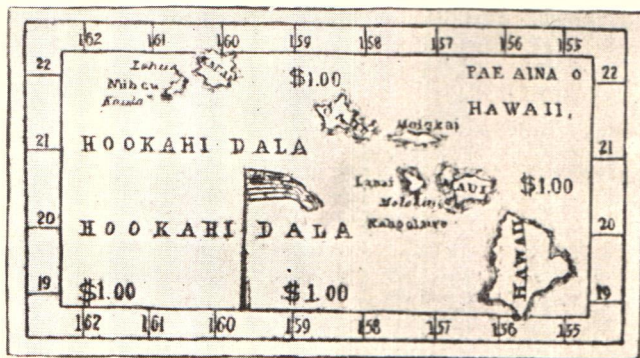

50¢ or HAPALUA. Extremely rare.

25¢ or HAPAHA. Extremely rare.

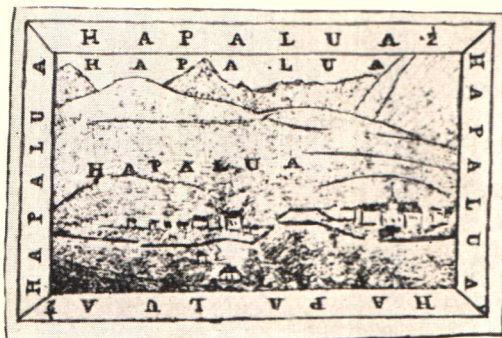

12½¢ or HAPA WALU (on obverse). The reverse had a black circular seal with vertical lines and old English letters B. L. H. Sometimes dated 1835, sometimes with various initials. Very rare.

Each value was of different size, the largest size being the largest denomination.

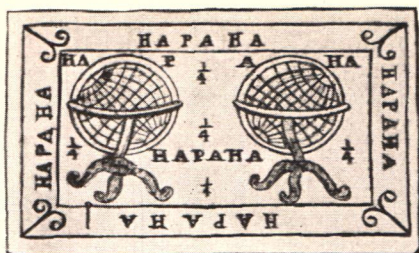

1843-1844. This money was printed from plates engraved by the Reverend Lorrin Andrews and issued for Charles Titcomb in 1843 and for the Wailuku Female Seminary, a Mr. Kellet, a Mr. Bernard, and Edward J. Bailey. Some were printed in red, others in black and some on red cardboard squares. Because the Rev. Andrews was located in Lahainaluna, Maui a contemporary cataloger refers to this series as "Lahainaluna money." This series consisted of the following (Cuts courtesy of Whitman Publishing Co.):

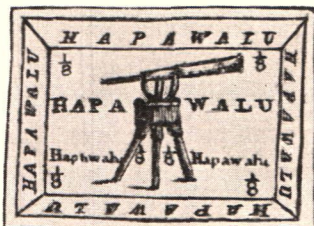

\$1.00 (HOOKAHI DALA). Very rare.

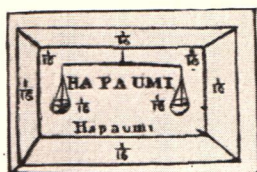

50¢ (HAPALUA). Very rare.

25¢ (HAPAHA). Very rare. (Bailey sometimes stamped these $\frac{1}{4}$ to pass as HAPAWALUS).

12 $\frac{1}{2}$ ¢ (HAPAWALU). Very rare.

6 $\frac{1}{4}$ ¢ (HAPAUMI). Very rare.

3¢ (3 KENETA). Very rare.

1844. \$5.00 note, Ladd & Company, Honolulu. Printed in Boston. Size of the regular United States currency. Very rare.

There is evidence that a \$3.00 note was ordered but may not have been printed as none is known.

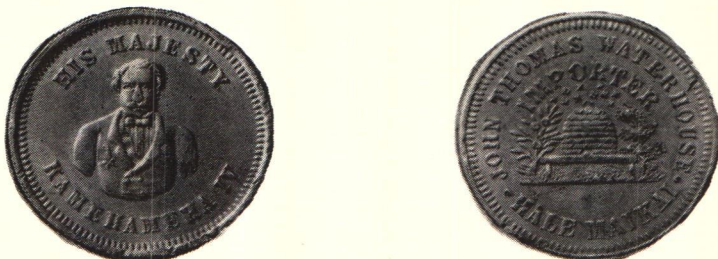

1847. 1¢, 1847. This is the first official coinage of the Kingdom of Hawaii. It is copper, bears the bust of King Kamehameha III, 1847 below; reverse, HAPA HANERI (hundredth part) within a wreath. AUPUNI HAWAII (Kingdom of

Hawaii). (Cut courtesy of Whitman Publishing Co.). There are several varieties from different dies. The main differences are the size of the bust, the date (either plain or crosslet fours), the number of berries on the wreaths. The cent is not rare. Recent souvenir pieces made of a composition metal have the word SOUVENIR on the reverse.

1848. 25¢ scrip by L. L. Torbert. Small squares of India paper on which were written 25 upper right, xxv lower left. LLT. Very rare but easily counterfeited.

1862. Token by John Thomas Waterhouse, in white metal. (Photo courtesy of American Numismatic Society.) The value was arbitrarily set, depend-

ing on "the mental alertness of the native" (Gibbs). The HALE MAIKAI means good or fine house. This token seems to have had considerable circulation. Scarce.

1871. 12½¢ copper. w. p. (Wailuku plantation) on the main island, 1871,

large starfish, HI (Hawaii) above. (Photo courtesy of Chase Manhattan Bank Money Museum). Scarce.

6¼¢ copper, similar but VI. Exists with date and without date. (Photo courtesy of the American Numismatic Society).

1879. 12½¢ copper. Thomas H. Hobron Railroad. R.R. 1879/T.H.H. 12½.

This later became the Kalenlin Railroad Co. Scarce. (Photo courtesy of the American Numismatic Society.)

A trial of the dies on a half dollar of 1872 was originally in the Howard D. Gibbs Collection now in the collection of Maurice M. Gould. (Photo courtesy of Maurice M. Gould.)

25¢ copper. Very rare.

ican Numismatic Society.) Copper. Very rare.

Half Real 1880. W. P. (Photo courtesy of American Numismatic Society.) Brass. Scarce.

1881. Pattern 5¢ struck in aluminum and in nickel, all are very rare. The

inscription reads AU MAU KE EA O KA AINA I KA PONO (The AU being mistakenly substituted for UA). (Cut courtesy of Whitman Publishing Co.)

1882. ONE RIAL, HAIKU Plantation, copper. (Photo courtesy of American

1882. Currency of the United States of the Second Charter Period, first series, issued by National Banks located in the Hawaiian Islands in denominations of \$5, \$10, \$20, \$50, \$100 (See Friedberg S-411, S-469, S-527, S-585, S-643).

The second issue of the Second Charter Period, 1882-1908 also included \$5, \$10 and \$20 notes (See Friedberg S-701, S-753, S-805).

The third issue, 1882 included \$5, \$10, \$20, \$50, \$100 notes (See Friedberg S-960, S-1010, S-1060, S-1110, S-1160).

The Chartered Banks were First National Bank of Hawaii (Bishop National Bank of Hawaii) No. 5550; First National Bank, Wailuku, No. 5994; Lahaina National Bank, Lahaina, No. 8101; Baldwin National Bank, Kahului, No. 8207; First National Bank, Paia, No. 10451; Army National Bank of Scofield Barracks, Honolulu, No. 11050.

1883. The story of the Kalakau coinage was ably presented by Dr. Jacob Adler in recent issues of *The Numismatist*. As he pointed out, the original authority was for a 12½ cent piece rather than for a dime. According to law, the 12½ cent piece is a coin rather than a trial piece. Conversely, the dime was issued without legal authority. Common usage, however, certainly entitles the dime to be categorized as a coin. (All cuts of Kalakau regular coinage are courtesy of Whitman Publishing Co.)

The obverse design is the same for the five different denominations. KALAKAUA I KING OF HAWAII. 1883. Bust right. The reverse design for the quarter, half and dollar centers around the Royal Hawaiian Coat of Arms, on mantle, supported with the Star of the Order of Kamehameha, suspended. The motto is UA MAU KE EA O KA AINA I KA PONO (The life of the land is righteousness) I—D. AKAHI. DALA. Charles Barber, engraver of the Philadelphia Mint, prepared the dies. On the 12½ cent piece the reverse reads HAPAWALU, within open wreath, a crown between the ends; the motto above and EIGHTH DOL. below. The dime reads ONE DIME, within the wreath and UMI KENETA (10 cents) below; otherwise, it is similar to the 12½ cent piece.

10¢ (UMI KENETA). A number of proofs were struck in silver and in copper. The dime is rarer than the quarter, half or one dollar pieces.

Eventually we will be able to give more definite ideas of comparative rarity, but early conjectures seem inadvisable.

The ink is hardly dry on the splendid effort by Maurice M. Gould and Kenneth Bressett (*1960 Catalog of Hawaiian Coins, Tokens and Paper Money*, Whitman Publishing Co.) and already the authors wish it were possible to make changes.

The dime in copper, for example, is listed as R⁸ which would indicate only one to three known. Too late, did I advise Mr. Gould that in 1948 I acquired a number of complete sets of copper proofs from the late Fred C. C. Boyd. If memory serves me correctly, there were at least eight sets. There were also several sets of the silver proofs.

Now that the money of Hawaii has become of prime interest it is important, first, that a work such as that published by Whitman Publishing Co. be

released. Then, it is imperative that information such as I have noted above be gathered and incorporated into the catalog. This process should be continued. Finally, we must avoid giving the impression of authoritativeness, lest our incomplete data be accepted as conclusive. I make a plea that, at least in this area, the attempt to indicate the known pieces be postponed until time has permitted us to gather the details, from whatever source.

12½ cents (HAPAWALU). The estimate made in the 1960 catalog that the

silver piece is R⁶, seems conservative enough, indicating as it does a population of from 13 to 30 specimens. Very likely, and again I caution that this is an opinion based on my own experiences, the lower figure will prove to be more accurate. The copper specimens rated as R⁸ are, I believe, not as rare as the silver pieces. My own appraisal of the situation might place the silver at R⁵ and the copper at R⁶.

The only specimen in gold which has come to my attention is in my possession. Dr. Adler passed along a conjecture that Claus Spreckels had this one struck for himself. It was, at one time, in the King Farouk collection. Listing of the 12½ cents piece in platinum and nickel may reflect the existence of such items, but I do not recall ever having seen either of them.

25¢ (HAPAHA). A number of proofs were struck in silver and in copper.

Here, again, the Rarity 8 will not hold up. The same may be said for the half dollars and dollars. (Although the new interest in Hawaiian money has created a demand which, apparently, is greater than the immediate supply, I might express this thought for what it is worth — within the last three years, I saw Hawaiian quarters by the roll!)

50¢ (HAPULA). More half dollars were minted than any of the other de-

nominations. A number of proofs were struck in silver and copper.

\$1.00 (AKAHI DALA). A number of proofs were struck in silver and in

copper.

In 1883, silver certificates or National treasury notes were issued by Kalakaua in denominations of \$10, \$20, \$50 and \$100. All are rare.

1884. Using a design similar to that used for the coinage of 1883, a few quarters and half dollars were struck in various metals. None is known in silver or copper. A curious note: The 1960 catalog lists platinum, gold, bronze and oroid, the latter for the quarter, the others for both denominations.

1886. 12½ cents. Grove Ranch Plantation (Photo courtesy of American

Numismatic Society). G.R.P. 1886/12½, copper.

1887. Same.

1891. The Kahului Railroad Co. issued railroad tokens (Photo courtesy

of Chase Manhattan Bank Money Museum) for 10, 15, 20, 25, 35 and 75 cents. Obverse. THE KAHULUI RAILROAD COMPANY LTD. GOOD FOR 75 CENTS. Reverse. KAHULUI MAUI HAWAIIAN ISLANDS, 1891, copper.

Kalakaua, left. LILIUOCALANIA. DEI. GRATIA/ the globe showing the Hawaiian Islands. HAWAIIARUM REGINA 1891. AKAHI DALA. These are quite rare, about fifty proofs said to have been struck.

1893. No coins were minted but a number of unofficial "patterns," if we can use the term loosely, were struck.

\$20.00 struck in gold (Cut courtesy of Whitman Publishing Co.). The ob-

verse is quite similar to that of the 1891 dollar. The reverse, crossed sword and scepter, crown above and 20 DALA/1893 below. The top half HAWAIIARUM REGINA, the lower half two branches tied with a bow. Four pieces said to have been struck.

\$1.00 1893 (Cut courtesy of Whitman Publishing Co.). Queen's head

Reverse, Globe, Hawaiian Islands, SPES PUBLICA. OCT. XVI MDCCCXCIII. Fifty pieces said to have been struck in silver, one in gold, two in copper, three in iron and one in tin, all proofs.

\$1.00 1893 (Cut courtesy of Whitman Publishing Co.). Larger head of

Queen, only one dolphin, below head, otherwise similar. Struck in silver, proof. Rare.

\$1.00 Provisional Government note is a newly discovered item listed in the 1960 catalog. It is a crudely printed bill HAWAIIAN ISLANDS. PROVISIONAL GOV-

ERNMENT, WILL PAY . . . OR BEARER, \$1.00. WAILUKU, NOV. 2, 1893, GOVR . . .

1895. REPUBLIC, SERIES A, SILVER CERTIFICATES. Denominations of \$10, \$20, \$50 and \$100 were printed by the American Bank Note Co. and were finely engraved. All are rare.

REPUBLIC, SERIES B, GOLD CERTIFICATES. Denominations of \$5, \$10, \$20, \$50, \$100 of which the first is scarce, the others rare.

REPUBLIC, SERIES C. Silver certificate of the same denominations, the \$5 and \$10 being scarce, the others rare.

(On April 30, 1900 the Hawaiian Islands were designated as a Territory of the United States.)

1902. United States National Bank Notes, Third Charter Period (See Friedberg S-1746, S-1797, S-1848) denominations of \$5, \$10 and \$20. In 1903, circulation of Hawaiian silver certificates became unlawful as of January 14th. Treasury notes were issued instead.

1929. Small size National Bank notes of the denominations of \$5, \$10, \$20, \$50 and \$100. (See Friedberg S-2001, S-2052, S-2103, S-2154 and S-2205).

1934. After the attack on Pearl Harbor the \$5 notes (F-2121 and 2122) of the 1934 and 1934A Series, the \$10 notes (F-2123) of 1934A and the \$20 notes (F-2124 and 2125) of 1934 and 1934A were surcharged HAWAII on both sides. Signatures of Julian and Morgenthau, brown seal.

1935. The \$1 note (F-2126) of the 1935A Series was similarly surcharged.

[Before I am taken to task for any errors of omission, let me record the existence of a number of saloon tokens, bus tokens, medals and orders. The new *1960 Catalog of Hawaiian Coins, Tokens and Paper Money* lists a number of these items.]

A.N.A. 1960 Convention

NEW EXHIBIT CHAIRMAN

Because of the serious illness of Edward Perkins, A.N.A. Convention Exhibits Chairman, the active chairmanship of the committee has been assumed by Co-Chairman Bartloff Kosroffian, P. O. Box 889, Boston 3, Mass. All communications concerning exhibits and case reservations should be sent to Mr. Kosroffian.

Everyone who visits *Old Ironsides* in the Charlestown Navy Yard in Boston takes a souvenir snapshot of the old frigate. The sailing ship has been restored to its exact condition when it fought in the War of 1812.

Left Handed Bills

British bank tellers are up in arms at the Bank of England's new one pound notes. The serial numbers of the old notes were in the upper right and lower left hand corners. In the new series, the Bank of England reversed the positions. The numbers are now in the upper left and lower right hand corners. The bank switched them around to accommodate a portrait of Queen Elizabeth in the right hand corner.

The tellers who sort the notes behind their grilles automatically pay attention to serial numbers to detect counterfeits and stolen notes. As most tellers are right handed, given to holding a sheaf of notes in the left hand while riffling them with the right thumb and forefinger, they find the new notes an unmanageable nuisance.

But the Old Lady of Threadneedle Street won't budge. The serial numbers stay where they are at, and the queen stays where she is at, and the tellers can either jump in the Thames or become ambidextrous. — *Chicago Tribune* editorial, March 23, 1960.

People to People Coin Exhibit in Korea

More than a hundred thousand residents of Seoul have viewed the coin exhibit of the Chase Manhattan Bank displayed by the Bank of Korea in the show window of Seoul's largest savings bank to mark the introduction of a national coinage in the Republic of Korea. Made available through the People to People Coin Committee, the loan exhibit was supported by a donation of numismatic books presented to the Bank of Korea by the American Numismatic Association and ten Peace dollars in plastic holders donated by the Chase Manhattan Bank together with pamphlets and other literature. Symbolic presentation of these items to Governor Kim Chin-hyong of the Bank of Korea was made on November 20, 1959, the opening date of the exhibit, by U.S. Charge d'Affaires, Sam P. Gilstrap.

USIS Seoul first proposed the procurement of a coin display through the People to People program last summer to salute the significant step toward economic stability and consumer confidence in the nation's currency taken by the ROK government with the decision to place coined money into circulation for the first time since the Republic was founded in 1948. The idea caught on and when the exhibit finally arrived in Seoul last October, the Bank of Korea, which had been asked to co-sponsor the display, offered to match Chase Manhattan's loan of the "Coins of the World" display with a display of ancient and historic Korean coins from its own collection. The Bank also made arrangements for a joint exhibit in the show window of the First City Bank on one of Seoul's busiest intersections, printed a thousand Korean catalogs plus a limited English edition and constructed display cases for its own coins that were a near-

perfect match for the cases housing the Chase Manhattan collection. The event received wide publicity with features including photographs in the major Seoul dailies and nationwide newsreel coverage.

The six numismatic books from the A.N.A. are being retained by the Bank of Korea as an aid to the classification of historic coins in its collection in the absence of an organized numismatic group or museum in Korea.

The Peace dollars are to be awarded by the Bank of Korea to the winners of an essay contest among high school students on the topic "New Coins of the Republic of Korea." The contest was run concurrently with the exhibit and results are now being evaluated. The selection of the winners and award ceremonies will take place during the month of January. Further information concerning this award has been requested.

Counterfeit Silver Crowns

Lately, through the pressure casting process, many silver crowns have been counterfeited. Only by study of the color, the texture of the metal and mostly the quantity of similar "rare" coins can falsifications be detected. Hans M. F. Schulman, 545 Fifth Ave., New York 17, N. Y., has kindly compiled this detailed list of counterfeits which have passed through his hands in the last few months:

Notes & Queries

Hawaiian Token

The Hawaiian statehood commemorative gold-bronze, token was conceived by officials of the Maui Chamber of Commerce. The size of a silver dollar, the coin bears the imprint of the great seal of Hawaii as redesigned under statehood, together with the names of all inhabited islands. The "coin" sells for \$1, postpaid (surface mail) from either Honolulu or Wailuku, Hawaii. Designed by Fred Ward, president, and E. Marion Sexton, manager of the Maui Chamber of Commerce, it was stamped by the Wendell-Northwestern firm of Minneapolis, Minn.

The first 40,000 coins contained the misspelling of the Island of Oahu (shown on the coins as OHAU) hence collectors in Hawaii bought them furiously following publicity attendant the error. The project sponsors reserved approximately half the total for mainland collectors when it became apparent that purchasers would want one of each, the incorrect and the corrected coins.

Some 150,000 of the commemorative statehood coins will be stamped and sold. In Hawaii, the coin may be used in hundreds of cooperating retail establishments, if the purchaser wishes, as a medium of exchange. The coin may be redeemed at the Maui Chamber of Commerce for full value until July 1, 1960, terminal date of the sale.

Mail orders may be sent to Junior Achievement of Hawaii, P. O. Box 2053, Honolulu, Hawaii, or to the Maui Chamber of Commerce, P. O. Box 138, Wailuku, Hawaii.

Kreisberg-Schulman Prices Realized

The Kreisberg-Schulman auction at the Waldorf-Astoria Hotel February 4-6 was attended by dealers and collectors from practically every state and also Europe.

The first session, consisting of ancient and foreign coins in gold and other metals from practically every country realized \$50,353.55, with many rarities making new records. The five pound gold of Victoria 1839 depicting Una and the Lion brought \$725.00; the 10 ducat of Leopold I, \$390.00; the 8 scudo cob of Philip V of Mexico, \$300.00; the 10 ducat of Portugal, \$500.00.

The second session of U.S. half cents, large cents through the silver dollars realized \$76,894.75. Some of the highlights were a choice 1793 cent which sold at \$575.00; a rare choice 1793 Liberty Cap cent, \$1450.00; 1799 cent, \$475.00; 1856 Flying Eagle cent, \$830.00; another 1856 cent in nickel, \$950.00. The 1792 half dime brought \$260.00; 1794 uncirculated half dime, \$350.00; very rare 1874-CC uncirculated dime, \$1200.00; 1795 quarter, \$1575.00.

The third session consisted of the Nilsson collection of crowns and thalers of the world, about 600 lots, brought \$14,903.50.

The fourth session, of U.S. colonials, patterns, stellars, territorials and proof gold and also, Russian gold and platinum, brought record prices for a total of \$171,404.60. A few of the prices were: Myddelton token in silver, \$300.00; Pattern of Lincoln AW 582, \$365.00; 1871 dollar AW 1097, \$750.00; Bickford international \$10 pattern, \$450.00; 1860-D gold dollar, \$1000.00. The proof gold went exceptionally well with most coins going over estimates. The \$4 gold stella brought \$3450.00.

In the pioneer and territorial gold all series went well with the Bechtlers and Clark Grubers bringing top prices. \$5 C. Bechtler, gem, brought \$1390.00; \$50 Humbert, uncirculated, sold at \$2350.00; the Wass Molitor \$50 round uncirculated, \$6770.00. The very rare \$20 Clark Gruber 1860 sold at \$4700.00. Russian gold and platinum coins were much sought after and brought record prices.

Burglary

Thieves broke into the shop of O. E. Jenkins, 1611 Highland Ave., National City, Cal., the night of February 9 and stole current U.S. silver coins and silver dollars. Evidently the pieces were taken for their monetary value.

Praise for Abdication Taler Story

Dear Mr. Dolnick:

I want to congratulate you for your readable and at the same time scholarly article "Abdication Taler of Ludwig 1" appearing in the Jan. 1960, issue of *The Numismatist*. It dovetails with the editorial ("Numismatics Vs. Coin Collecting") on the opposite

page. Articles of this type help to remove collectors from the group that, to paraphrase Wilde, "Knows the price of every coin and the value of no coin."

Craig Suggests Coin Stories With Proof Sets

Alan C. Craig, publisher of the *Far Eastern Numismatic Digest* and specialist in Oriental coinage, has suggested to Mint officials that brief stories of our regular coins be included with current proof sets. Such histories might broaden the appeal and bring an increased sale of proofs, according to Craig.

Gold Piece From Out of This World

The Nation of Celestial Space, seeking to prove nationhood, has minted a "coin" called the gold "celeston."

Celeston, enlarged

The celeston is made of gold, fineness .900. It measures fourteen millimeters in diameter, same as U. S. \$1 gold piece which U. S. stopped minting 80 years ago. However, its weight is 34 grains, as against 25 grains for the U. S. gold dollar. Fifteen "celestons" weigh the equivalent of a \$20 gold piece. "Celestia always believes in giving extra value," states James T. Mangan, founder and premier, 3600 W. Ninety-sixth St., Evergreen Park 42, Ill.

The face of the coin bears an image of Mangan's daughter, Ruth, to whom he refers as "Princess." Date is 1959. The word MAGNANIMITY is woven into the hair of the "Princess." Eleven stars signify the number of letters in "magnanimity" as well as the eleven years of Celestia's existence. Back of "coin" carries wording, 1 GOLD CELESTON, NATION OF CELESTIAL SPACE, and a tiny mint mark for space, #, a proofreader's symbol.

The tokens are intended not for barter or exchange, but for distribution among the friends of the space nation, now claiming a population of

23,419. "Celestia is a moral nation seeking to establish peace in the universe" adds Mangan. "It would be nice if all the nations of the world followed our example and went back on the gold standard again."

Mr. Mangan in 1948 as an American citizen, made a complete and legal claim to all celestial space in the name of a new nation, Nation of Celestial Space. The charter was recorded in Cook County, Ill., a legal subdivision of America.

Commemorative Medals

On March 18, President Eisenhower signed the two bills calling for commemorative medals: S. 2431, Kansas Centennial medal, became Public Law 86-393, and S. 2454, Pony Express Centennial medal, became Public Law 86-394. Although no striking dates have been set, interested collectors may obtain official information from the following: Pony Express medal, National Pony Express Centennial Association, Headquarters Pioneer Village, Salt Lake City 9, Utah; Kansas medal, Maurice E. Fager, Chmn., Kansas Centennial Commission, 801 Harrison St., Topeka, Kansas.

In Congress

On March 23 Representative Victor L. Anfuso of New York introduced a bill (H. R. 11328) to exclude from the mails, under regulations prescribed by the Postmaster General, any coin which is sent in the mails in payment for any item. The bill has been referred to the House Committee on Post Office and Civil Service.

New West Coast Coin Publication

The *Western Coin Journal*, started last year, is published monthly at 333 Second St., Moorpark, Cal. N. E. Wilson is editor. It reports numismatic news and events in the California area. The March, 1960, number of forty processed pages reports on the February convention of the Numismatic Association of Southern California, contains a personality sketch of Mrs. Grace Brainard, a "Didjano" page by Karl Brainard, advertisements and "With the Dealers" section.

Two New Mayors

When the Mayor of Paterson, N. J. died suddenly last December 6, President of the Board of Finance William H. Dillistin (A.N.A. 8527) automatically became Mayor of that city of

150,000 inhabitants through 1960. Dillistin's name is well known to numismatists as the author of authoritative articles on paper money. He retired from the Federal Reserve Bank of New York over nine years ago.

That popular Florida "Southern Colonel," Grover Criswell, was elected Mayor of St. Petersburg Beach (pop. 4,000) recently. It is presumed that this new duty will not hinder Grover's promotion of Confederate paper money, or keep him away from numismatic conventions.

Montreal Club Issues Token and Booklet

Notice was given in the Montreal Coin Club news on page 448 last month that a "gold" anodized medal and a booklet on numismatics by H. D. Allen were available. The medal is still priced at 75¢, but it has been necessary to increase the book cost to \$1.00 due to enlarging it to 88 pages, including illustrations. Those who have already ordered the book will save time and correspondence by re-submitting an additional 50¢ to Robert Verity, 2330 Lincoln Ave., Montreal, Quebec.

Mint Error Bulletin Gets New Editor

Because of pressure of private business, Michael Kolman, Jr., has resigned as Editor of the *Mint Error Collector Bulletin* and has been succeeded by Raymond J. Larson, 421 Hillcrest Dr., Plattsmouth, Neb. The latter remains as Secretary of the Collectors of Mint Errors.

his activities with C.O.M.E., currently serving on the board.

Raymond Larson is one of the founders of C.O.M.E., bearing the No. 2 membership, No. 1 being Michael Kolman, Jr. Larson retired from the local postoffice in 1957 and at the same time retired as an infantry Lt. New Currency Unit In Guinea

The Guinean authorities have decided to set up their own monetary system and central bank. Measures taken for this purpose as of March 1, 1960 include the creation of a new monetary unit, the Guinean franc, with gold content of 0.0036 gram of fine gold. The CFA franc (franc of the French African colonies), which has been the currency hitherto circulating in Guinea, will be exchanged for the new Guinean franc at the rate of one to one.

At the same time a new central bank, the Bank of the Republic of Guinea, was founded. It will take over the functions hitherto performed in Guinea by the Central Bank of the West African Territories. The new bank will have a monopoly of note issue, and is responsible for the control of private banks.

PACIFIC NORTHWEST CONVENTION

Coin collectors in the states of Oregon, Washington, Idaho and Montana are looking forward to their big annual convention in Salem, Ore., May 20, 21 and 22. This year's gathering of the Pacific Northwest Numismatic Association will be held in the Marion Motor Hotel, with the Salem Numismatic Club as host. General Chairman, Al Watts, has been busy with his committees getting everything in readiness. A highlight will be the awarding of an 1856 Flying Eagle cent to an attending member of the PNNA.

Charles Peters, of Oakland, Calif., is in charge of the auction and has been especially active in accumulating a great number of coins, currency, tokens and medals.

"We hope that numismatists from other parts of the country, who happen to be planning business or vacation trips to the Pacific Northwest in May, will attend the convention and get acquainted with us," Watts said. You need not be a member of the PNNA or any club to attend. Anyone who is interested in seeing the displays, in entering displays, in selling coins, buying coins, or in just visiting with fellow collectors, will be welcome.

There will be some wonderful displays to be seen when the convention opens. Auction coins and materials will be on display, of course, and many reservations have been made for bourse tables.

Charles H. Speight, Springfield, Ore., is president of the PNNA. Other officers are Jack Rand, Tacoma, Wash., vice president; Mrs. T. H. Abney, Seattle, Wash., secretary; and William Worth, Portland, Ore., treasurer. - D.O.D.

Another altered date U. S. coin has been reported, this one a 1959-D changed to 1950-D. - Orange County Coin Club report.

NUMISMATICS VERSUS COIN COLLECTING: Rejoinders

The following comments were elicited by Glenn B. Smedley's guest editorial in the January, 1960, *Numismatist*:

Pros and . . .

I have just read Glenn B. Smedley's guest editorial in the January issue of *The Numismatist*, entitled "Numismatics versus Coin Collecting." I want to compliment you on a fine article. It expresses my sentiments in every way.

I have enjoyed the hobby of philately for the past twenty-five years. Only recently have I become interested in numismatics. — H. E. MUNDT

Cheers! That was one wonderful article on "Numismatics vs. Coin Collecting"! I shall have a New Year's drink on it and wish I could offer Glenn Smedley one also.

I get just sick inside when I pick up copies of almost any of the dozen and one little fly-by-nights that are advertising "Rolls, Rolls, Rolls"! And silver dollars at fantastic prices which I can pick up at the bank at face! I'm really ashamed to admit I'm a coin collector sometimes. — GENE DE NISE

The Oregon Trail Coin Club holds bimonthly meetings, one an auction or "commercial" meeting, the other for the study of coins, currency and other numismatic topics. We are calling this to attention after reading the article by Glenn B. Smedley in the January *Numismatist*. — DOYLE DAGGETT

As President of the Isthmian Numismatic Society here in the Panama Canal Zone, I have been instructed by the members to convey our appreciation for Glenn Smedley's timely article in the January issue of *The Numismatist*. This comes in a period when new collectors are received in commercial currents where the only thought is selling them some material regardless of whether they have an interest in that particular field or not.

We have placed this editorial in plastic and it will be on display at all of our exhibits and meetings to advise all visitors and members alike that Numismatics is not only an outlet for rolls and proofs but a hobby that usually requires a lifetime of search and study to understand fully and enjoy.

Congratulations again on this excellent editorial. — FRANK V. KERLEY

I have read page 12 of *The Numismatist* and "them's exactly my sentiments"! I am very disgusted with what has been happening in our fine numismatic field and only hope and pray that our fine hobby will not be ruined by these "stock market boys." — MELVIN E. CAME

Con

This is provoked by "For the Good of Numismatics and the A.N.A." And by the Editor's note at end of article: "This is the first of what we hope will be a series of guest editorials on subjects of general concern to our readers." With all due respect to Glenn B. Smedley, if "buying, selling and swapping" were removed from the scene, the goose which laid the golden egg would be dead.

Why all the furor about getting an 1870 Carson double eagle? Have numismatists suddenly developed a love and affection for this particular gold piece or is it because they can realize five hundred dollars for it

without question? When you remove the profit motive you have taken the cream of my coffee, the meat of my stew, the leaven of my loaf, and if you depended on love and affection for the ads in *The Numismatist* all you would need is a front and back cover.

Consider the proof set racket. No one would hold for a fleeting second that the purchasers of more than a million sets a year do it for the love and affection they lavish on the proof sets. This is a fair example of what makes numismatics tick.

"Buying, Selling and Swapping" may be the greater of two evils but it is an "evil" which is most necessary to the growth and advancement of numismatics. Love and affection and historical value may prompt some collectors to buy but when they are called upon to separate themselves from real money the "profit motive" is the thing they are most interested in.

"Earth gets its price for what Earth Gives us;
The beggar is taxed for a corner to die in,
The priest hath his fee who comes and shrives us,
We bargain for the graves we lie in; . . ."

The preacher, the lawyer, the doctor, the merchant, the teacher, all have the profit motive, so why discriminate against the poor numismatist?
—J. P. MITCHELL

Editor's note: But you stopped too soon, Mr. Mitchell, for James Russell Lowell's next two lines are:

"At the devil's booth are all things sold,
Each ounce of dross costs its ounce of gold; . . ."

ANOTHER "FLOUR" NOTE

In the November, 1932 issue of *The Numismatist* there appeared an article on the "flour" notes issued by Lockport Mills, Lockport, N. Y. The denominations listed were 10¢, 12½¢, 25¢ and 50¢. The notes were dated 1851 and signed by L. A. Spalding, printed on India paper by Mooney & Buell, Buffalo, N. Y. The article stated that the mills were in business in 1840 until destroyed by fire in 1870.

There now appears a 5¢ denomination which reads, "Due the Bearer FIVE CENTS in flour on demand at the Lockport Mills. Lockport, 7th month 15th 1837." The note is signed and was printed by "R Packard, Alb'y." — EARL HUGHES, A.N.A. No. 33599.

Yokohama Numismatic Society Revived

The Yokohama Numismatic Society, established in the Meiji period and continuing its activities through the Meiji-Taisho period (1890-1920), has recently been revived. Founded under the influence of H. A. Ramsden, then consul general of Cuba in Yokohama, and Mr. Kobayagawa, prominent Yokohama export and import merchant, the society published a periodical for investigation of numismatics and mutual benefit of its members. Because of both internal and external conditions, membership gradually dropped off and the club stopped functioning.

A NOTE ON GRESHAM'S (?) LAW

By

LARRY E. PRICE, A.N.A. No. 33638

IN A RECENT article in the *Numismatist*,¹ mention was made of Gresham's law. This law is generally stated as "cheaper money drives out the dearer."² An explanation of why this is so is rather straightforward. If the several types of money circulated in a region are not kept equal in purchasing power it will be quite natural for the undervalued currency (the "dearer" money) to be withdrawn from circulation, hoarded, melted down, or exported. The overvalued money, that is the "cheaper" money, will continue to circulate since the government has presumably declared it to be equal in value to the intrinsically better currency.

Many authors credit the statement of this principle to Sir Thomas Gresham.³ Others are not so sure.⁴ Most agree, however, that the principle was first called Gresham's law by H. D. Macleod in his *The Elements of Political Economy*, London, 1858.⁵

Sir Thomas Gresham was born about 1519. He was educated at Cambridge University and after graduation apprenticed to Sir John Gresham, his uncle. In 1551 Sir Thomas was appointed to a position in the service of the crown as royal agent for King Edward VI. In this office Gresham was assigned to manage the English debt abroad. He spent considerable time in Antwerp, for the stock exchange or bourse there was a financial center of Europe.

In 1554, after successfully dealing with the problem of the debt, Gresham was commissioned to travel to Spain to collect a bullion loan. Gresham urged that Queen Elizabeth I restore the English coinage, explaining to her that the debasement under the reign of King Henry VIII had driven gold out of the country.⁶ This, then, was apparently a statement of what we know today as Gresham's law.

Was Sir Thomas's statement to Queen Elizabeth the first formal recognition of this idea? Consider the following passage from the work of the Greek comic poet Aristophanes in his play *The Frogs*:⁷

Often times have we reflected on a similar abuse,
In the choice of men for office, and of coins for common use;
For your old and standard pieces, valued and approved and tried,
Here among the Grecian nations, and in all the world beside,
Recognized in every realm for trusty stamp and pure assay,
Are rejected and abandoned for the trash of yesterday;
For a vile, adulterate issue, drossy, counterfeit, and base,
Which the traffic of the city passes current in their place!
And the men that stood for office, noted for acknowledged worth,
And for manly deeds of honor, and for honorable birth;

Trained in exercise and art, in sacred dances and in song,
 All are ousted and supplanted by a base, ignoble throng;
 Paltry stamp and vulgar metal raise them to command and place,
 Brazen counterfeit pretenders, scoundrels of a scoundrel race,
 Whom the State in former ages scarce would have allowed to stand
 At the sacrifice of outcasts, as the scapegoats of the land.

It appears that Aristophanes has stated the essence of "Gresham's" law along with some adroit commentary on the contemporary (*circa* 405 B.C.) political scene. Today Aristophanes is perhaps best remembered for his play *Lysistrata* (c. 411 B.C.).

Despite any controversy over the authorship of Gresham's law, the principle that "bad money drives out good" is definitely established in our monetary theory. And the man in the street knows it, too.

A.N.A. Sponsors International Exchanges Between Clubs

The People to People Numismatic Committee met in New York City on January 29 to discuss arrangements for establishing a reciprocal exchange of information, literature, coins and currency, between numismatic clubs in the United States and those in foreign countries. The following were present: Vernon L. Brown, chairman of this committee and Curator of The Chase Manhattan Bank Money Museum; Oscar H. Dodson, President of the A.N.A.; Sawyer McA. Mosser, Executive Director of the American Numismatic Society; Michael Pollock, retired president of the Cooper-Bessemer International Corporation; and George Vanderwende, retired officer of the United States Information Agency. As a guest of the committee, Harry Lindquist, General Chairman of the People to People Hobbies Committee, gave excellent ideas for the development of this project.

The impetus for starting such a program was given by President Dodson's visit to several numismatic societies in Europe during the summer of 1959. This trip was sponsored by the A.N.A. in connection with its People to People Program, and was under the auspices of the United States Information Agency. His reception by these groups was so outstanding that upon his return, the U.S.I.A. suggested that the A.N.A. endeavor to develop further contacts with foreign numismatic organizations and collectors. In keeping with this thought, President Dodson in his report to the U.S.I.A. said: "... In furthering the purpose of the People to People Program, the American Numismatic Association is establishing a numismatic society 'adoption' program, similar to the cities' plan, which will encourage local clubs in the United States to select an overseas club as a sister society for the exchange of numismatic literature, currency and coins, club programs, and other items of mutual interest."

George Vanderwende was appointed chairman of this exchange program. He has had wide international experience and has many numismatic contacts in foreign countries. At this meeting the committee approved his proposed recommendations for activating the program, and in this work he will be assisted by Mr. Pollock. Full details will soon appear in *The Numismatist* and other numismatic publications.

The committee believes that any club or individual who wishes to participate in this exchange program will find it a rewarding experience. In this way participants should be able to add to their collections, acquire valuable numismatic knowledge, and form friendships in various countries of the world.

THE PRINCE AND A HALF DOLLAR

Back in 1948, the superintendent of the Philadelphia mint little suspected that one of the new Benjamin Franklin 50¢ pieces would find its way into the pocket of Prince Charles — heir to the throne of England — who was born the same year. Three million of these coins were struck.

How did the coin find its way into the pocket of the young Prince? Coincidence. A preacher and a 73-year-old coin collector passed the time of day in a hotel lobby and thus became acquainted.

Paul McGuffin of Springfield, Mo. — a numismatist for half a century — happened to strike up a conversation with John French back in December, 1958. French, an ex-actor and renowned dramatist in England, mentioned that he was personally acquainted with Queen Elizabeth and had performed many times in the Royal Palace.

When he spoke of Prince Charles, the idea occurred to Mr. McGuffin of presenting the lad with one of his special treasures — a 1948 Franklin half dollar. Mr. French — on his way back to England to carry

on Billy Graham's work — declared that he would see that the coin arrived safely in the future king's hands.

Next Valentine's Day, Feb. 14, 1959, Mr. McGuffin received the following letter from the Queen's lady-in-waiting:

I write at the Queen's command to thank you for the coin which you have sent for the Prince of Wales through Mr. John French.

It is very kind of you and I know that your gift will be much appreciated. I have to send you Her Majesty's sincere thanks for your thought for her son.

Mr. McGuffin, who has collected coins, matches, stamps, and is also the proud owner of the largest advertising pencil collection in the world, is also owner of the oldest baseball known in the history of the game.

And for the letter he received in exchange for his 1948 Franklin half dollar — he is adding it to his collection of letters from famous persons, which includes almost every historical name in the twentieth century. — MICHAEL KELLY

ISRAEL MEDAL OF VALOR

Symbolizing the concepts of valor as revived in modern Israel, beautifully executed in massive bronze and fine silver, these medallions offer tribute to the Hebrew soldier of all time. Designed by the artists Rothschild and Lippman, one side shows the figure of the roaring lion in Tel Hai while the other side bears a sword with an olive branch twisted around it. Both sides feature biblical quotations in both English and Hebrew.

Smithsonian Numismatics in 1959

A survey of the gold coins struck in the United States was completed by Acting Curator Vladimir Clain-Stefanelli and published in abridged form in various issues of the *Washington Star*. Some progress was made on the "Dictionary of American Engravers and Medallists," and also in the arrangement and collation of source material for a corpus of Greek coinage from Kallatis, Dionysopolis, Istros, Markianopolis, Nikopolis, Odessus, and Tomis. Dr. Clain-Stefanelli's research on "Re-attribution of Some Alexander Coins" continued, and a "Chronology of the Lysimachus series of Kallatis" was worked out, based on a comparative study of the dies as well as on stylistic, historical, and intrinsic elements. The results of this study formed the subject of a lecture presented at the annual meeting of the Board of Regents of the Smithsonian Institution.

Assistant Curator Elvira Clain-Stefanelli continued her research on modern gold coinages of the world issued since 1800. Certain sections of this long-range project, which will include over three thousand different types, were chosen as subjects for special publications; sections on Italy and the Italian States with one hundred forty-two types, and Germany and the German States of the nineteenth century with three hundred eighty-four types, are in course of completion. The Russian gold and platinum issues of the last one hundred fifty years, supplemented with an historical introduction, were the subject of a special paper in course of publication in the *Numismatic Circular*, London, England. A special study entitled "Italian Coin Engravers of the Nineteenth and Twentieth Centuries and Their Work" was completed; it presents an analysis of the artistic aspects of the work of Italian die engravers since 1800, and is a new contribution to numismatics and its relation with history and the history of art.

A new project connected with ancient Greek metrology has resulted from research on South Italian and Sicilian numismatics. It is a study on an unpublished coin denomination, the *tetartemoron*, struck in Rhegium, South Italy. In the field of ancient Roman numismatics, the Assistant Curator continued her research on the subject, "Voting in Ancient Rome as Illustrated on Coins." The purpose of this study is to show the contribution of numismatic evidence to a better interpretation of an interesting political and social aspect of ancient Roman life. Some numismatic evidence was also gathered for a publication on two hybrid denarii of Decimus Postumius and L. Mussidius Longus.

In connection with their research projects, Dr. and Mrs. Clain-Stefanelli traveled extensively, visiting mints in the United States and Canada. Paper currencies and other source material of the colonial period formed the subject of research at the American Antiquarian Society in Worcester, Mass. The Curator delivered several talks to groups interested in numismatics.

Therese Heyman, museum aide, completed her project on the medieval Mosan goldsmith, Godefroid de Claire.

Accessions to the Smithsonian's collections include the following:

The donation of Mrs. Catherine E. Bullowa, consisting of 21,531 coins, medals, and paper currencies, is an important addition to the numismatic collection. Of special interest in this series is a group of five hundred four early German and Italian silver and copper coins, dating from the eleventh through the sixteenth centuries and a collection of sixty-two German patterns engraved by C. Goetz at the Munich Mint after World War I.

A notable accession is the President Dwight D. Eisenhower collection of coins, medals, and memorabilia, including a group of one hundred

forty-nine gold, silver, and copper mintings covering all periods of history from ancient Greece to modern times. Especially remarkable are a silver shekel from Judea struck during the first revolt against the Romans in A.D. 66-70 and a silver shekel from Tyre, Phœnicia, considered similar to the "thirty pieces of silver" from the Bible. A set of fourteen gold medals, issued by the Italo-Venezuelan Bank and portraying World War II leaders, and a twenty-dollar gold piece engraved on the reverse REIMS, MAY 7, 1945, 0240 are included.

An important collection of three hundred seven proclamation pieces, struck by different Mexican cities and organizations in the late eighteenth and early nineteenth centuries in commemoration of Spanish kings, was presented by Joseph B. Stack. Joseph Noble donated five terracotta molds excavated in Egypt and used in ancient times for casting imitations of Roman coins issued about A.D. 300 at Alexandria. Seven steel dies done by artists like C. G. Wright and A. C. Paquet, for the striking of medals portraying George Washington, Zachary Taylor, and Ulysses S. Grant, were donated by Paul Franklin. Tribute to Dr. Glenn Curtis

When Charles Glenn Curtis, M.D., died Nov. 15, the word of his death brought messages of condolence and sorrow for the loss of a remarkable personality from people in all walks of life at near and far away places, including such notables as Richard Nixon, Vice President of the United States. . . . Dr. Curtis was ranked at the top in his professional field in which, as a general practitioner, he was affectionately known as the "Country Doctor" from Brea, Calif. There, with the exception of two years in government service, he practiced medicine from 1927 until 1958 when a heart impairment forced his retirement. . . .

Although his life as a doctor was a busy one, he managed to find time for many avocational pursuits. His energy was unbounded. Everything he did was with great zest and enthusiasm. He was intensely interested in community, civic and governmental affairs. . . . To fill the in-between hours of his everyday life, he took to various hobbies. For him this was a way of relaxing. At first, he gave his spare time to photography, for which he became widely known. No public event or meeting ever was complete without camera shots by "Doc" Curtis. Many of his pictures carried the mark of a professional artist. Probably his finest work was done when he undertook to photograph rare coins and to use these on slides for publications and his numerous lectures on numismatics.

Although this hobby would be enough to keep the ordinary person busy during off hours, it was not so with Dr. Curtis. Born with the instincts of a collector, he delved into various subjects and soon became a recognized connoisseur of Indian relics, guns, postage stamps, and coins. As his interest in hobbies grew, it became evident that numismatics was his favorite pastime.

My first acquaintance with Dr. Curtis was in 1933 when my business connections moved me to offices a few doors away from his office. Having collected stamps and coins since I was in my teens, it was inevitable that we should become associates in numismatics. My own activities as a collector had been dormant for some time, but his unrestrained enthusiasm was so infectious that it soon rekindled my passion for possessing old and rare coins. While my interest remained chiefly with U. S. coins, it was only natural, with his bent for wide coverage, that Dr. Curtis would enter every field and phase of numismatics, ranging not only from United States coins to coins of every country in the world, but ranging also through all types and kinds of media of exchange. One of his most outstanding and interesting series was his collection of odd and curious items, which he often displayed in talks before various clubs and organizations.

So it was that for twenty-five years I worked and played with Dr. Curtis in the numismatic world. In 1939 we joined as charter members in forming the Orange County Coin Club, the fourth coin club to be organized in California. As the first permanent secretary and spark plug of this club, he was one of the group that proposed and later established the California State Numismatic Association.

Dr. Curtis was not one to seek high office for himself, but when it came to selecting group leaders he was always in there pitching and exerting his influence. As an example, I point to the fact that it was he who was responsible for my succeeding him as secretary of the Orange County Coin Club when he went abroad to Ecuador. This was a job he never wanted me to relinquish. It was thus that he persuaded others to work for a cause in which he believed.

I know of no association that has given me greater pleasure than being a helper to Dr. Curtis, particularly in numismatics. I could go on telling of the many incidents and occasions which will always stand as memories of his extraordinary personality, but I will sum it all up by saying to his friends and fellow numismatists that none will feel his loss more keenly than I. (Excerpts from Herbert Bergen's tribute in the *Calcoin News*)

The one hundredth anniversary meeting of the **Boston Numismatic Society** was held February 11 at the Sheraton Plaza Hotel. President Pond welcomed the 55 members and guests, and spoke briefly on the Society and its one hundredth anniversary. She then introduced ANA President Dodson and his gracious wife, Polly, who honored us with their presence and an address on this special occasion. Admiral Dodson compared 1860 with 1960, and reminded us of the clouds of civil war which were gathering when our Society had its beginning. He recounted his trip to Russia last summer, living the account with anecdotes and personal experiences which seemed to carry us to Russian soil to live again with him this remarkable adventure. Partaking of birthday cake and coffee among friends—some that we don't see regularly—was another pleasant feature of this very special meeting. A note of sadness came from the realization that death has taken members Horace Grant and James Keenan, Jr. from us recently. Exhibits were by James Clapp, George Fuld, Ben Lowenstam, Wayne Rich and Harold White-neck.

ADVERTISERS PLEASE NOTE ALL FOLLOWING CONDITIONS

All correspondence relating to advertising should be addressed to the Advertising Manager, S. W. Freeman, P. O. Box 591, Newport, Ark. Make all remittances payable to the American Numismatic Association.

Advertising Contracts: These are available, covering periods of three, six and twelve consecutive months for display space as listed in the above Table of Rates, and are necessary if the schedule of reduced rates is to apply. If the advertiser prefers not to accept the Contract, such reduced rates will be granted only upon payment in advance for the period desired.

References: All advertisers who submit copy for the first time are definitely requested to furnish therewith banking or other satisfactory references.

Available Space Units: Practical considerations restrict the allocation of space units to those listed in the above table. Any amount of space (subject to any current limitation) is available IF these units or a combination of them are used. Unless contrary instructions are given, copy will be cut if found too full for the space designated; if no designation is made, it shall be understood the amount of space is left to the discretion of the Advertising Manager.

Unless under contract, smaller units than one-half page accepted subject to available space in desired issue.

Deadline: Copy must be received by the Advertising Manager by the 7th of the month to insure insertion in the following month's issue.

Illustrations: All cuts to be provided by the advertisers, care being used to see that they do not exceed in measurement the limits of the space unit desired. The Advertising Manager will, when requested, have suitable cuts made from furnished photographs.

We cannot accept mats.

Miscellaneous: Please furnish copy separately from your letter of transmittal. Advertising copy included in the body of a letter usually has to be retyped for the printer; this should not be required. **Mail Bid Sales listing not acceptable.** It is also the policy of the magazine to limit its advertisements to those of numismatic character.

Preparation of Copy: Advertising copy should be prepared with minute care. Carelessness invites error—something which both advertiser and publisher are anxious to avoid. Use only one side of the sheet. Send originals, not carbon copies. Use only paper of good quality, and not of extremely light weight.

In the absence of an Advertising Contract, when payment in advance for any number of consecutive months has been made, if change of copy has not been received by the 7th of the month for the next issue, the latest preceding advertisement will be run.

Advertisers may use a trade name, but, except in the case of an incorporated concern, the name of the proprietor or some other responsible person connected with the firm must also appear in the advertisement.

The right to edit copy, to require payment in advance, and to decline any advertisement is specifically reserved.

1955 DOUBLE DIE CENT

Yes, we have available a small group of the most popular coin of the year, the 1955 double die Lincoln cent.

Since its listing in the 13th edition Guidebook the 1955 Double-Die cent has caused more collector and investor interest than any other United States coin. This is rightly so. The 1955 double-die cent has three outstanding features:

First — it is the most spectacular die error of modern times. The other twentieth-century die errors (1917/8-D nickel; 1942/1 dime; 1918/7-S quarter; etc.) have only the date in error. On the 1955 double-die cent the **entire obverse** is strikingly double cut . . . there are two sharply cut impressions of each letter and two distinct dates; one above the other.

Second — the mintage of the 1955 double-die cent has been estimated at about 20,000 pieces in all . . . thus making it the rarest Lincoln cent by far — 24 times more rare than the 1909-S V.D.B. and over 50 times rarer than the 1914-D. The 1955 double-die cent error was not discovered by numismatists until the coins were put into circulation. The number of 1955 double-die cents in collectors' hands is probably not over 2,000 to 3,000, if that many.

Third — the 1955 double-die Lincoln cent is the rarest coin in the Lincoln cent set. Lincoln cents are the most popular series in U.S. coin collecting. Therefore the 1955 double-die cent has the unique distinction of being the rarest coin in the most popular U.S. series. The investment possibilities are obvious. The popularity of the 1955 double-die cent has been further enhanced by its listing and illustration in the Guidebook. We notice, also, that the new Library of Coins album has a specific opening for this coin.

We have been fortunate in purchasing a limited number of these coins. All are choice specimens which have never been cleaned. We recommend the 1955 double-die cent as an exceptional investment item and also as a centerpiece for your Lincoln cent collection.

A NEW KIND OF COIN ALBUM The Library of Coins

Complete visibility and complete protection, the two most-wanted features of a coin album, are presented for the first time by *The Library of Coins*. Bound like books, handsome and compact, each Library of Coins volume displays and protects its coins between two sliding panels of clear, tough plastic. Each coin "porthole" has printed next to it full data on mint mark and quantity minted. Each volume contains a brief background story on the coins, giving both the novice and advanced collector helpful information, including a listing of the rare dates.

Measuring $8\frac{1}{4} \times 6\frac{1}{4}$ ", the volumes are low priced, sturdily manufactured, and permanently bound in a variety of identifying colors for the various denominations. Their compact size permits the storing of a large coin collection in very small space. Backbones are clearly gold stamped so that they are as readily identifiable as are books.

The Library of Coins represents the first major innovation in high grade coin albums in more than 30 years, and was several years in development. Designed by numismatists, the Library of Coins is designed to satisfy the needs and desires of numismatists. Write for descriptive circular on the Library of Coins.

☆☆☆ THE OFFICIAL HAWAII

This long awaited official medal has now been struck, as authorized by Senate Concurrent Resolution No. 12, adopted by the First Legislature of the State of Hawaii, meeting in Special Session October 22, 1959.

The Coin and Currency Institute Inc. of New York and California has been named as the National Distributor of this historical medal, illustrated above in its actual size of $2\frac{1}{2}$ " diameter.

This bronze medal was struck to commemorate officially the entry of Hawaii into the Union as the 50th State.

It will make a desirable and much wanted companion piece to the official Alaska Statehood Medal, issued last year in similar size, when Alaska became the 49th State.

The Hawaii medal is now available and is attractively packaged in its own box with a printed leaflet containing pertinent and important data. The medal was executed by the Medallic Art Company, who have also struck the Alaska Statehood Medal as well as several Inaugural Medals.

The entry of a new state into the Union is such a rare and unusual occurrence, and is so national in character, that ownership and display of this memento of a great historical event will afford everyone much personal pride and pleasure. It will make a truly important numismatic gem in your collection.

The bronze Hawaii Medal is priced at \$4.00 plus .15 for shipping and handling; add local Sales Tax where applicable.

STATEHOOD MEDAL \$4.00

If you are looking for rolls or speculative items. Our offering here is of interest to the collector who is in need of choice numismatic material at competitive prices. This must be rarer than even the 1796 pole to cap. When the Standard Catalog came out in 1957, the price on it was \$135.00. The price now, no doubt, would be \$275.00, or \$300.00. JUST ONE MAN'S OPINION

The Carson City Dollars are the most underpriced series of all coins minted.

All one has to do is check the number minted of each year and you will see that there will never be enough to supply our five (5) million or more (est.) collectors.

Take the 1885 with only 228,000 minted. This would be one for about every twenty-one collectors.

Second comes the 1881 with only 296,000 and so on.

I have a few sets of the 1880 through 1885 complete in Strictly Brilliant Uncirculated.

SPECIAL: For Set of Six (6)\$49.50

Below are my prices for single coins . . . all Brilliant Uncirculated.

1878 CC\$ 5.75	1881 CC\$12.50	1884 CC\$ 7.50	1890 CC\$10.00
1880 CC 15.00	1882 CC 6.00	1885 CC 15.00	1892 CC 20.00
	1883 CC 6.00	1891 CC 7.50	

My second offering this month is, in my opinion, a small set with a future. The War Time Silver Nickel consisting of 11 coins minted 1942 to 1945. (See Red Book.) This set in Brilliant Uncirculated is beautiful and also underpriced in this booming coin market.

My price for the complete set is.....\$9.95 Only until present stock is sold.

The 1943-D is of course in this set and this is one that I compare in value to the 1942-D which is selling today for \$8.50 each.

JOHNSON'S APPROVAL SHIPMENTS

For twenty years now, busy people in the trades, business and professions, have found my approval shipments the easy, convenient way to build up nice coin collections. Start in now getting the best coin values, with the least bother possible.

Simply send me a list of the coins you need, in any series Half Cents to Gold coins, or Paper Money. Or, a list of the coins you already have, if shorter. You will receive a selection on approval, on which you pay \$10.00 or more a month on coins you keep. I send more coins as you make payments. You can stop shipments any time you do not want to continue. If you have no special series in mind, here are a few suggestions:

TYPE SET OF REGULAR U. S. COINS: One coin of each different design (not dates or mintmarks), from Half Cents to Silver Dollars. Album to hold the Type set will come with your first shipment.

TYPE SET OF U. S. GOLD COINS: Different designs of gold coins from Gold Dollars to \$20.00 pieces. A beautiful plastic holder for the type set with your first shipment.

FOREIGN SILVER DOLLARS: One Silver Dollar from each different country. Travel the world in your easy chair, from Afghanistan to Zanzibar. Album to hold the dollars, with first shipment.

COMMEMORATIVE HALF DOLLARS: The number one series in United States coins, a must for every collection. After first shipment, you can decide if you want to work on a Type set, or the Complete set. Incidentally, I believe I buy and sell more Commemorative coins than any other dealer, so if you have a set, part set, or any quantity you want to sell, just wrap them up and send to me for my best offer and check. Coins will be held intact awaiting your O.K.

UNITED STATES PAPER MONEY: Beautifully engraved notes, issued from 1862 to date. All illustrated and valued in the Friedberg Paper Money Book, which I would be glad to send on approval if you do not have a copy as yet.

ALSO INDIAN CENTS, LINCOLN CENTS, NICKELS, DIMES, QUARTERS, HALF DOLLARS, DOLLARS, CANADIAN COINS, FOREIGN GOLD COINS, FRACTIONAL CURRENCY, etc.

PURCHASES: Send collections or duplicates you wish to sell, by Registered Mail or Railway Express. I will figure them up and submit best offer and check. Then, will hold coins for your reply. If no deal, coins will be returned fully insured.

WANTED!

Rolls of \$50.00 Gold Pieces — California or Pan Pacific.
We pay highest Cash Prices for these Rolls. Let us know what you have to offer. Take advantage of the current interest in this type of Numismatic material.

If you think that our request for \$50.00 Gold coins in Rolls is silly, we agree. For that matter "collecting" rolls is silly. If you are going to be a "Roll Collector," why not try for \$50.00 Gold pieces? It may not make sense to coin collectors, but at least it is as logical as any other form of Roll Collecting. All you have to do is stop and consider which side of the fence you are on — the silly side, or the other side.

We believe in coin collecting as a reasonable, relaxing hobby. We'd like to see the collector acting sensibly. While occasionally we handle U. S. coins, we certainly don't handle rolls of any kind. We deal in interesting and historical Ancient and Foreign coins. To this end our *Numismatic Review* lists coins, not bags and rolls. In addition, each issue contains articles of interest to coin Collectors. Collecting Ancient and Foreign coins provides greater satisfaction to the man who knows his coins and who tries to find out everything he doesn't know. The second issue of the *Numismatic Review* has now been sent to our regular subscribers. If you are not on our Subscription List and would like to see the *Numismatic Review*, write us. We will send you a copy of the current issue free of charge.

If you are a roll collector, stand off and look at yourself. Get away from the silly side of the fence. There are too many people there already. Let the *Numismatic Review* show you how much fun there can be in real coin collecting.

ALL ARE NICE UNCIRCULATED SPECIMENS . . . ALL SUBJECT TO PRIOR SALE!

Anyone who has been reading the "rash" of coin newspapers, magazines and journals which have been beamed at the collector, is well aware of the fact that prices which seemed a little high a few months ago are now considered bargains. We, as well as other advertisers, have the experience of people using out-dated advertisements and trying to buy coins on the prices of six months ago . . . so, we must limit the time each ad's prices will remain current, these prices will be current until a new NUMISMATIST advertisement next month or we run out of stock . . . and the stocks are not unlimited! On the matter of price comparison, we refer you to our ad in this Magazine in the August 1959 issue, page 1026, then to our March 1960, page 373 ad and compare prices:

	August 1959 Price	March 1960 Price	Today's Price

We will have a nice listing of auction material in the Scrapbook, if you are not receiving this Magazine, mail us a stamped self-addressed envelope and we will mail you an auction list. This is a floor and mail bid sale, open to the public, closing date will be June 4th, 1960.

Sale will be held at the Hotel Ottumwa, Ottumwa, Iowa, commencing at 1:30 p.m. first session; 7:00 p.m. second session, both on Saturday, June 4th, on Sunday June 5th, we will have the third and final session commencing at 1:30 p.m. and continuing until done . . . you are cordially invited to attend.

If you are contemplating selling your coins and/or currency, we would appreciate hearing from you, either to sell at auction or outright. . . .

A PROUD ANNOUNCEMENT

Yes, we are that way about our 1960 Annual Catalog!

60 pages of condensed type, 4 plates and many illustrations in the text, combine to make this book one of the largest and most important foreign sales catalogs ever issued. A glance inside would show you the following:

- 1 — Thousands of coins from medieval times to date are listed at fixed prices (many as low as 5¢ and 10¢).
- 2 — Line drawings executed in extreme detail, illustrate some of the commonest pre-1800 coins, early German state coins, Notgeld, British Trade Tokens as well as other types.
- 3 — Some samples of Gothic script used on medieval coins are shown, alongside their modern equivalents.
- 4 — Some useful information on early Chinese cash coins.
- 5 — Short historical notes introduce some of the popular series.

To extract the information furnished in this book would normally require an expensive library and many days of tedious research. Every effort was made not to duplicate illustrations in C. W. or M. W. C.

To assure the widest possible distribution of this important catalog, we have kept the price down to only \$1.00. We are sure you will find it worth much more than the modest price we have placed upon it. (This dollar is refundable on purchases of \$10.00 or more during 1960.)

Useful for cleaning all kinds of coins, but particularly adapted to cleaning coins of copper or nickel.

EASY TO USE AND ECONOMICAL! FAST ACTION — IT ACTUALLY CLEANS IN SECONDS!

Does not add shine, but brings out natural color, including original brilliance if it is still there under tarnish or coating. Dull or dark uncirculated coins become brilliant uncirculated coins in seconds.

This result of years of experiment can be safely used on valuable coins to improve their appearance and increase their value.

On sale in many leading stores in 4-oz. bottles, with full directions, at \$1.00.

If your dealer does not yet have it, send us \$1.00 for 3-oz. bottle (enough to clean hundreds of coins) carefully packed and postpaid to any address in the United States or Canada.

A FAST BUCK??

If you want a quick profit, foreign coins are not for you. Profit may come, but if it does, it will be incidental to other benefits from a pleasant hobby. I like to think there is more to a hobby than making money from it.

If you are looking for relaxation after a hard day at work, if you enjoy the search for an elusive coin (which money cannot buy — you have to locate it first), and if you like to display your collection to those who are bored with date sets and rolls, FOREIGN COINS ARE FOR YOU!

My lists of foreign coins will help you start right. They probably contain more minor foreign coins than you have ever seen in one place before. No charge for the list, and I hope you will enjoy it.

Also it depicts Santa Fe as an important junction point on the old Spanish Escalante, Coronado, and Onate Trails and marks it as the end of the famous Santa Fe Trail.
